00 The Six Segments at a Glance

01 Honeymoon Workflow

02 Family Vacation Workflow

03 Bach Weekend Workflow

04 Milestone Group Workflow

05 Business Travel Workflow (Deep Dive)

06 All-Inclusive Specialty Workflow

07 Cross-Segment Operations

SECTION 00

The Six Segments at a Glance

Six distinct buying patterns. Each requires different discovery, sales cadence, and operational flow. The brand is one. The workflows are not.

The Segment Matrix

SEGMENT	AVG BOOKING	SALES CYCLE	Y1 MIX	PRIMARY CHANNEL	NET / BOOKING
Honeymoon	\$12K–\$22K	2–6 weeks	25%	Network referral + content	\$1,200–2,400
Family Vacation	\$5K–\$15K	3–5 weeks	22%	Network referral + partnerships	\$500–1,500
Bach Weekend	\$1.5K–3K / pp · 8–15 pax	2–4 weeks	14%	Network + IG	\$1,500–3,000 / group
Milestone Group	\$25K–80K total	3–6 months	10%	Network referral + family lifecycle	\$4,000–8,000
Business Travel	\$2K–3K / trip · 20–50 trips/yr / account	2–4 weeks per account	15% (Y2 ramp to 25%)	LinkedIn outbound	\$60–120 / trip
All-Inclusive (specialty)	\$4K–\$15K	1–3 weeks	14% (cross-cuts other segments)	SEO + content + referrals	\$500–1,800

The Operational Difference

DIMENSION	HIGHEST-TOUCH	LOWEST-TOUCH
Pre-call work	Milestone Group (research / family logistics)	Business Travel (just a Slack)
Calls per booking	Milestone Group (3–5)	Business Travel (1 onboarding then async)
Hours per booking	Milestone Group (12–25 hrs)	Business Travel (10–30 min/trip)
Repeat probability	Business Travel (90%+)	Bach Weekend (one-time event)
Referral probability	Bach Weekend (8–15 friends = 8–15 leads)	Business Travel (B2B, slower)
Margin / hour	Honeymoon (high \$)	Bach Weekend (high if you batch)

Capacity Math (Solo, M6–I2)

SEGMENT	HOURS / BOOKING	MAX / MONTH (SOLO)
Honeymoon	8–12	~6–8
Family Vacation	5–8	~10
Bach Weekend	6–10	~5
Milestone Group	12–25	~2–3
Business Travel	~20–30 min / trip × 30 trips = 10–15 hrs / account	~5–8 accounts

Total monthly capacity at full mix: ~25–30 leisure bookings + 5–8 active BT accounts. Beyond that → first sub-advisor.

Honeymoon Workflow

AVG BOOKING

\$12–22K

NET / BOOKING

\$1,200–2,400

SALES CYCLE

2–6 weeks

PLANNING FEE

\$500–1,000

ICP — Who's the Buyer

Couples 27–34, recently engaged (typically 9–14 months before wedding). One partner does the research; the other has opinions about budget. They've already googled. They've already saved IG posts. They're shortlisting, not just exploring. Affluent enough to spend \$10–25K on a single trip without flinching but still price-aware. Almost always a major life event (the trip after the wedding) so emotional stakes are high.

Discovery Questions (Use the Exact Order)

15-MIN HONEYMOON DISCOVERY

1. **When's the wedding, and when are you thinking the trip will be?** Looking for: wedding date + how soon after (immediately / 6 mo / 1 year).
2. **Have you started a shortlist?** Looking for: their assumed answer, then we can challenge it.
3. **What kind of trip do you imagine — one place and don't move, or multi-stop?** Reveals whether they're a beach-and-don't-move couple or an adventure-then-recover couple.
4. **What does "this trip would be perfect" look like in your head?** Open-ended. Lets them describe in their own words. Listen for vibes vs. specific properties.
5. **Budget — what total cost would feel right, including flights?** Per-couple total. Not "per person." If they hesitate, give a range: "Most of my couples spend \$12–25K total."
6. **Anything you're not willing to do?** Long flights, mosquitos, cold water, super-active, super-quiet. Eliminates 30% of the world fast.
7. **Have either of you been to [destination they mentioned]?** If yes, ask what they liked / didn't. If no, you have your hook.

8. **How are you splitting the planning — mostly one of you, or together?** Pinpoints decision-maker. The "researcher" partner is your primary contact.

The Workflow — Stage by Stage

STAGE 01

Day 0

Lead In

Source: Network referral (highest) / IG DM / partnership intro / cold reply.

Action: Auto-reply within 1 hour: "Congrats — happy to walk through ideas. Want to book a 20-min call? My Calendly: [link]."

Key signal: "Engagement," "honeymoon," "September wedding" in the original message = qualified.

STAGE 02

15 min before call

Pre-Call Prep

Review intake form (if used). Glance their IG to gauge aesthetic. Have 3 destination ideas ready in different price bands (\$10K / \$16K / \$22K). Open Fora portal in another tab.

STAGE 03

20–30 min

Discovery Call

Run the 8 discovery questions above. Resist the urge to recommend until min 14–15. Listen for: who's the decision-maker, what's the actual budget (not the stated one), what's the unspoken expectation (Instagram-worthy vs. private vs. activity-packed).

End with: "I'll put together 2–3 options that match what you described. Planning fee is \$500—refundable through the first revision if it's not right. Want me to send the link?"

STAGE 04

Same day to 3 days post-call

Planning Fee Collected

Stripe link sent. Auto-confirmation email + Slack notif when paid. 48-hour proposal SLA starts. If they don't pay within 5 business days, send one follow-up: "Heads up — holding your spot in the queue until Friday."

STAGE 05

24–48 hours

Proposal Build

2–3 destination options. For each: 1 hotel (or 2 if multi-stop), flight routing, dates, total cost, what's included via Fora's preferred-partner programs (specific amenities by property), why this beats their original shortlist if applicable.

Format: 3-page Notion doc OR Canva PDF (whichever the client prefers). Always include: a clear "I'd pick option B because X" recommendation at the bottom. Never present all options as equal.

STAGE 06

3–7 days after proposal sent

Proposal Review Call

30-min call. Walk through the proposal. Answer questions. Make 1–2 substitutions if needed. Lock the destination + property.

If they need more time: "Take a couple days. I'll hold the dates till Friday." Don't let it go past 10 days without re-engaging — rates and availability shift.

STAGE 07

Within 48h of confirmation

Booking

Book hotel through Fora portal (verify preferred-partner amenity package). Book flights through Fora Flights Desk if Pro tier, or guide them to book direct on a deal you've vetted. Collect deposit if applicable (most all-inclusives are full prepaid; many luxury hotels are 50% at booking).

Send confirmation email with: booking ref numbers, hotel direct phone, flight info, amenity package summary, what's prepaid vs. balance, what to do at check-in.

STAGE 08

30 days out

Pre-Trip — T-30 Days

Pre-trip packet email (VA-produced): destination weather, what to pack, restaurant reservations recommended (book if needed), excursions to consider, tipping norms, currency, transit from airport.

STAGE 09

1 week out

Pre-Trip — T-7 Days

Personal message from you: "Hey — you're 7 days out from [destination]. Anything come up I should help with? Last call for restaurant reservations / spa bookings."

Re-confirm flight times. Send WhatsApp number with: "Save my number. Use it 24/7 if anything goes sideways."

STAGE 10

Days 1, 4, 7

In-Trip

Day 1: "Land safe? Room good?" Quick WhatsApp.

Day 4: "How's it going? Anything you wish you'd booked I can still try to grab?"

Day 7 / Last day: "Travel home safe. Welcome-back message coming tomorrow."

STAGE 11

Day after return

Post-Trip — T+1 Day

Welcome-back message + photo request: "Welcome back! Anything you want to send my way photo-wise (with permission to repost) would be awesome. And if you have 60 seconds, a Google review means the world." Include the review link.

STAGE 12

T+3 days, T+90 days, annually

Referral Ask + 1-Year Loop

T+3 days: "If you loved the trip, the highest compliment is sending one friend my way." Specific. Not a generic "let me know if you know anyone."

T+90 days: "Quick one — how's married life? Any travel coming up?" (Babymoon teaser.)

T+1 year (anniversary): Personal anniversary message. Often triggers an anniversary-trip booking. Cycle continues.

Honeymoon-Specific Objections

OBJECTION	VERBATIM RESPONSE
"We were thinking of doing this through our wedding planner"	"Great planner. Wedding planner does venue/decor/ceremony. I do hotels/flights/multi-stop logistics. We work great together — want me to coordinate directly with them?"
"Can we use our IHG / Marriott points?"	"You can — just not for both elements. Decision: use points on hotel (you lose the FSPP/Privé amenity package and the bookable upgrade) OR pay cash for the hotel through me (you keep the points for status earning + get the amenity package). For honeymoons, paying cash usually wins — the cash value of the upgrade + breakfast + credits typically exceeds the value of the points redemption."
"It's so far out, why book now?"	"Two reasons. One: the better resorts sell out at peak honeymoon dates (Sept/Oct, March break, holiday weeks). Two: deposit-and-cancel policies on most properties are 60–90 days flexible. You're not really locked in; you're just reserving."

Honeymoon KPIs

METRIC	TARGET
Discovery call → planning fee	60%
Planning fee → booking	85%
Avg booking size	\$14K
Days from discovery → booking	14–21
Post-trip referral rate	20% (1 in 5 sends a friend)
1-year repeat (anniversary trip)	15%

— SEGMENT 02

Family Vacation Workflow

AVG BOOKING

\$5–15K

NET / BOOKING

\$500–1,500

SALES CYCLE

3–5 weeks

PLANNING FEE

\$200–500

ICP

Parents 32–45 with 1–3 kids (ages 0–14). Affluent suburban (Thornhill, Forest Hill, Bayview). Annual trip pattern (March break, summer, December). All-inclusive weighted, with 30% European city/multi-stop in the mix. Decision-maker is typically one parent (often, but not always, the mom). High repeat probability — once they trust you, they book every year for 5+ years.

Discovery Questions

20-MIN FAMILY DISCOVERY

- 1. When are you traveling, and how flexible are the dates?** School calendar is the constraint. Identify if locked.
- 2. Ages of kids?** Critical for property selection. Under 4 = certain pools, 4–10 = kids' club, 11+ = teen amenities.
- 3. What kind of trip works for your family — relaxed beach, adventure, multi-city, theme park?**
- 4. Budget total or per-person?** Most parents think in total. Get them to confirm including flights.
- 5. Have you stayed at resorts before? Which ones? What worked, what didn't?** Calibration question. "We did Sandals" tells you a lot.
- 6. Adults-only sections matter to you?** Almost always yes if kids are 7+. Almost always no if kids are 2–4.
- 7. Flight tolerance?** 5 hrs / 8 hrs / 12 hrs. With small kids, this is real.

8. Any dietary / accessibility / medical things to plan around? Critical. Often surfaces only when asked.

The Workflow

STAGE 01

Day 0–2

Lead In + Pre-Call Filter

Most family-vacation leads start with low specificity ("we're thinking somewhere warm in March"). Reply with a friendly nudge to book a call + a quick question to filter: "What ages are the kids? And were you thinking all-inclusive / hotel / cruise?"

STAGE 02

20–30 min

Discovery Call

Run the 8 questions. Pay special attention to: prior resort experience (their reference points), school dates (constraints), and dietary/accessibility needs (often surface late).

Recommend 1–2 on the spot if confident. Family travel is more about narrowing fast than exploring widely — parents want decisions, not options.

STAGE 03

Same day

Planning Fee

Lower than honeymoon: \$200 standard, \$500 if multi-stop or 2-week itinerary. Family clients tend to book annually — the long-term LTV justifies a lower entry fee.

STAGE 04

48 hours

Proposal

Format matters: families want a 1-page summary they can email to the other parent. Don't send a 3-page Notion doc. Send a clean PDF: 1 destination recommendation + 2 backup options, each with: property name + room type + dates + flights + total cost + amenity package.

Always include kids' programming details if available (kids' club hours, age requirements, supervised activities).

STAGE 05

5–10 days

Decision Call (Optional)

Families often want to make the decision asynchronously (both parents need to review). Don't push for a second call unless they ask. Follow up via email or text after 5 business days with a yes/no nudge.

STAGE 06

24h post-confirmation

Booking

Often involves multiple rooms (adults + kids in adjoining or connecting). Verify room configuration matches family size. For all-inclusives, confirm meal plan tier (Standard / Club / etc).

STAGE 07

T-30, T-14, T-7

Pre-Trip — Family-Specific

T-30: Family-specific pre-trip packet (more detailed than honeymoon): kids' club schedule, what to pack for kids, restaurant booking strategy (many resorts require advance reservation), pool depths if relevant, beach safety, child passports + ETA reminder.

T-14: Re-confirm flight times. Check on any health/medical needs.

T-7: Final pre-trip note + WhatsApp number.

STAGE 08

Day 1, Day 4

In-Trip

Day 1: "Hope the flights with the kids were okay. Settled in?"

Day 4: Light check-in.

STAGE 09

T+1, then annual

Post-Trip + Annual Loop

Welcome back + review ask. Schedule the next-year touch: **October (winter break planning) and January (March break planning)**. This is the highest-retention segment if you nail the annual rhythm.

Family Travel KPIs

METRIC	TARGET
Discovery → planning fee	50%
Planning fee → booking	80%
Avg booking size	\$8K
Year-over-year repeat rate	60%+
Referrals (parent network is dense)	30% within 18 months

— SEGMENT 03

Bach Weekend Workflow

AVG GROUP SPEND

\$1.5–3K / pp · \$15–
30K total

GROUP SIZE

8–15 people

SALES CYCLE

2–4 weeks

PLANNING FEE

\$500–1,500

ICP

Maid of Honor / Bride organizing for 8–15 women, ages 26–34. Wedding is 4–8 months out. They've already settled on a destination concept (Mykonos / Tulum / Lisbon / Nashville / Miami / Mexico City) but haven't done logistics. Decision-maker is the MOH (or sometimes the bride directly). High group-text energy: 8–15 women in a WhatsApp means coordination overhead is real.

Discovery Questions

25-MIN BACH DISCOVERY

1. **How many people, and what's the role of the person I'm talking to (MOH, bride, etc.)?**
2. **What dates, and how locked are they?** 4-day weekends are most common (Thu–Sun or Fri–Mon).
3. **Destination ideas?** If they say "we're thinking Mykonos or Tulum," respect it. Don't pivot unless there's a structural problem.
4. **Per-person budget — what's everyone comfortable spending?** Critical. There's always a budget-conscious member.
5. **What kind of vibe — private villa / boutique hotel / all-inclusive / Airbnb-with-amenities?**
6. **How many of the group know each other well?** Reveals risk of sub-group drama.
7. **Are there any specific activities the bride wants (boat day, club bottle service, spa, photography)?**

8. What's the realistic decision timeline? How fast can they commit, given they need group consensus.

The Workflow

STAGE 01

Day 0

Lead In

Source: typically IG referral or friend-of-friend. Often: "Hey, my friend just got engaged and we're trying to figure out her bach — can we chat?"

Auto-reply within 1 hour. The MOH is typically in flight planning mode and responsive.

STAGE 02

25–30 min

Group Briefing Call

Almost always with the MOH alone (rarely with the bride or the full group). Run the discovery questions. Bach groups always have an in-group budget tension — surface it directly: "What's the highest someone in the group can spend per person, and what's the lowest? Plan for the lowest."

STAGE 03

Same day

Planning Fee

Higher fee than family (\$500 base; \$1,000 if international with complex air; \$1,500 for villa + multiple restaurants + boat day). Justify it: bach groups are 8–15 individual bookings, often with separate flights from different cities. You're doing 3–5x the work of a couple's trip.

STAGE 04

3–5 days

Proposal

1 strong recommendation (don't give 3 options — group can't decide between options). Include: property + per-pp cost + group activities + day-by-day rough plan + flight cost ranges from common cities.

Send as a shareable Notion page or PDF that the MOH can drop in the group WhatsApp.

STAGE 05

5–14 days

Group Consensus Phase

This is the longest stage. Group WhatsApp goes wild. Be patient. Don't push. Check in once at day 5: "Group feeling good about it?"

If the group has objections, gather them all at once via MOH, then issue ONE revised proposal addressing all. Avoid death-by-revision.

STAGE 06

7–14 days

Booking — The Hard Part

Two booking models:

- **Group room block:** Hotel/villa holds rooms; you collect deposits from individuals; one master folio. Better economics but more logistics.
- **Individual bookings under a shared resort:** Each person books under their own card; you book all of them through Fora. Cleaner but more transaction volume.

For 10+ pax villa: use the group block. For all-inclusive resort: individual bookings.

Set deadlines: "Everyone needs to confirm their dates and payment method by [Friday].

Names not in by then go to waitlist."

STAGE 07

T-30, T-7

Pre-Trip Coordination

T-30: Group itinerary PDF: hotel info, restaurant reservations (book them yourself), boat day details, spa day if booked, transport from airport.

T-7: WhatsApp message to MOH: "Last call for any restaurant or activity additions. Otherwise — have an incredible weekend."

STAGE 08

Mid-trip + T+1

In-Trip + Post

Light-touch check-in mid-trip. Post-trip: **this is where bach trips pay back massively in referrals.** 8–15 women now think of you as "the travel agent who planned my friend's bach." Send each one a follow-up: "If you have a trip coming up, would love to help."

The Bach Multiplier

THE COMPOUNDING MOVE

Every bach trip = 8–15 new people in your network who just experienced your work firsthand. Of those 8–15, statistically 2–4 are engaged or planning a wedding within 2 years. The bach itself nets ~\$2K–3K; the downstream honeymoon and wedding-guest-travel bookings net \$5K–15K. This is the highest-LTV-per-acquisition segment in the practice.

— SEGMENT 04

Milestone Group Workflow

TOTAL SPEND

\$25–80K

GROUP SIZE

12–30 people

SALES CYCLE

3–6 months

PLANNING FEE

\$2,500–5,000

ICP

Multi-generational family or extended-friends group. Occasion: 40th / 50th / 60th birthday, parents' anniversary, family reunion, bar/bat mitzvah trip abroad, post-wedding extended celebration. Decision-maker is typically one organizer (often the host or one of the adult children). Budget is sizable but allocated across many travelers, so per-person economics still matter.

Discovery Questions

45-MIN MILESTONE DISCOVERY (LONGER THAN OTHER SEGMENTS)

1. **What's the occasion, and whose celebration is it?** Whose preferences drive decisions?
2. **How many people, ranging in age from what to what?** Multi-gen logistics get specific.
3. **Date range — how locked?**
4. **Destination ideas — or are you open?** Milestone groups often have a "vibe" (Israel pilgrimage, Italian villa, Caribbean reunion) before destination.
5. **What's the budget — who's paying and how does it split?** Critical. Host pays all? Each family pays own? Mix?
6. **Mobility / dietary / health considerations across the group?**
7. **Activity vs. relaxation balance?** Older generations often prefer fewer activities; younger generations want more.
8. **Single-property or multi-stop?**
9. **Are people flying from different cities?**
10. **Is there a specific "moment" the trip is built around (dinner, ceremony, event)?**

The Workflow

STAGE 01

Day 0

Initial Brief

Source: typically warm network referral or partnership intro (family lawyer, financial advisor, wedding planner who's worked with the family before).

Schedule 60-min discovery call. These don't get done in 20 minutes.

STAGE 02

45–60 min

Discovery Call

Run the 10 questions. Take detailed notes. Identify the constraint set: dates, budget, accessibility, dietary, geographic preferences. Ask: "If I came back to you with a perfect proposal that included everything except [one constraint], which one are you willing to flex on?"

STAGE 03

Same day or 1 day after

Planning Fee

\$2,500 base. \$3,500 for 20+ pax or complex multi-stop. \$5,000 if it includes event coordination (private dinner, milestone ceremony, etc).

This isn't optional — the planning workload is enormous. Set expectations: "I'll spend 15–25 hours building this proposal. The planning fee covers that work and is refundable through the first revision if it's not what you wanted."

STAGE 04

5–10 days

Proposal Build

Significantly more detailed than honeymoon or family proposals. Include:

- Single recommendation (one strong option, not three)
- Property + room allocation (who stays where) + room types
- Day-by-day group itinerary outline
- Per-person cost breakdown
- Cost-by-traveler-segment (kids, adults, seniors if rates differ)
- Flight options from each origin city
- Group activities (private dinners, excursions, transportation)
- Backup if specific dates / properties have issues

STAGE 05

2–6 weeks

Family Decision Process

Multi-stakeholder decision. Patient is required. Expect: a) the host approves but needs sibling buy-in, b) one family has dietary/dates concerns, c) someone wants a cheaper room option. Issue revised proposals at most 2x. Past that, structural issues exist and you need a re-discovery call.

STAGE 06

2–4 weeks

Group Booking Process

Use Fora Groups platform (built for exactly this, \$80M+ volume since Oct 2025). It provides:

- Group portal each guest can use to confirm + pay
- Master booking sheet visible to you
- Payment collection across multiple travelers
- Group amenity blocks (concierge access, welcome amenity, group dinner)

Set clear deadlines and a payment schedule. Most milestone groups need: 25% deposit at confirm, 50% at 90 days out, balance at 30 days out.

STAGE 07

T-60 / T-30 / T-7

Pre-Trip Coordination (Heavy)

T-60: Confirm all room types, dietary needs, group activities, transportation.

T-30: Group itinerary PDF. Restaurant reservations confirmed. Private group activities booked. Transfers arranged.

T-7: Final logistics email to all travelers (with permission via host). Your WhatsApp number shared with the host.

STAGE 08

Daily

In-Trip Presence

For milestone groups, daily WhatsApp check-ins with the host are normal. Things will come up: a guest has a complaint, a restaurant changed plans, weather issue. You triage from afar. This is where Fora's hotel-direct relationships matter — when you call the GM with the host's issue, doors open faster than if the host called directly.

STAGE 09

T+1, then 6-month touch

Post-Trip + Family Lifecycle

Welcome back + review ask. The big play: the milestone group has 12–30 people who now know you. **Add each of them to the newsletter (with permission via the host).** Within 18 months, 3–5 of those people will have their own trip-worthy event — engagement, family vacation, birthday.

Milestone Group KPIs

METRIC	TARGET
Discovery → planning fee	70% (high commitment from the start)
Planning fee → booking	90%+ (sunk cost is real)
Avg total spend	\$45K
Avg net commission	\$5,500
Hours per booking	15–25
Downstream bookings within 18 months	3–5 from same group

— SEGMENT 05

Business Travel Workflow

AVG TRIP SPEND

\$800–3K

TRIPS / YR / ACCOUNT

20–50

SALES CYCLE

2–4 weeks (account)

PRICING

Free / \$150–500 mo

The Difference

This workflow is the opposite of leisure travel. Leisure is high-touch low-frequency. Business travel is low-touch high-frequency. Optimize accordingly: front-load the onboarding work, then move to async transactional booking. See Playbook Section 06 for the full ICP, outreach sequence, and onboarding details. This document covers the operational workflow after onboarding.

The Booking Workflow (Per-Trip)

STAGE 01

T - 0

Request In

Client texts/Slacks: "Need NYC Sun–Wed, 4-star, near Midtown, under \$400/night."

Your reply (within 30 min): "On it. Any hotel preference, or want me to optimize for Hyatt Privé / Marriott STARS perks?"

STAGE 02

T+15–30 min

Search + Confirm Preference

Pull 2–3 options from Fora portal that match preferred-partner amenity programs. Send back: "Three options — Park Hyatt \$385 (Privé: upgrade + \$100 F&B + breakfast), Edition \$420 (STARS: upgrade + \$100 + breakfast), Conrad \$360 (Impresario: \$100 + breakfast). I'd pick Park Hyatt — the rate's lower than Marriott rack and Privé gives you the biggest perks package. OK to book?"

STAGE 03

T+30–60 min

Book

Book through Fora portal under their loyalty number. Confirm preferred-partner amenity attribution. Verify card on file is correctly charged.

Send confirmation: "Booked. Confirmation #XYZ. Privé upgrade should be in your folio at check-in. \$100 F&B credit + breakfast for 4. Have a good trip."

STAGE 04

T-1 day automated

Pre-Trip Reminder

Auto-email: "Heads up — you're checking in tomorrow at Park Hyatt NYC. Address: 153 W 57th. Suite upgrade confirmed in folio. \$100 F&B credit on file. Late check-out by 2pm noted. Text me if anything goes sideways."

STAGE 05

As needed

Disruption Recovery

Flight cancelled, hotel overbooked, missed connection. Client texts. You respond within 15 min and fix. This is the WhatsApp value-prop. Common moves:

- Hotel overbooked at check-in → call GM, use Privé status to claim upgrade or move to same-tier sister property
- Flight cancelled → re-book on next available, alert hotel of late check-in
- Client added meeting requires city change → re-route everything in 30 min

STAGE 06

Monthly

Monthly Account Review

1-page summary email: trips booked, total spend, perks captured (upgrades + credits + breakfast values), points/miles earned, any disruption recoveries handled. This is the retention mechanic — clients forget the value you're providing if you don't show them.

STAGE 07

Quarterly

Quarterly Optimization Call

20-min call. Review: pace toward next status tier (Hyatt Globalist, Marriott Titanium, Hilton Diamond), opportunities for status match across brands, leisure trip cross-sell (their spouse's anniversary trip, family vacation next year).

This is also when you ask: "Anyone in your network who travels similarly to you?"

— SEGMENT 06

All-Inclusive Specialty Workflow

AVG BOOKING

\$4–15K

NET / BOOKING

\$500–1,800

SALES CYCLE

1–3 weeks (shortest)

PLANNING FEE

\$0–300

The Strategic Note

All-inclusive is a specialty positioning that cross-cuts the other segments. Most all-inclusive bookings happen through one of the leisure segments above (honeymoon at Excellence, family at Hyatt Ziva, bach at Royalton). But the all-inclusive expertise also generates a meaningful flow of **standalone all-inclusive inquiries** — couples or solo travelers booking a 5-7 night resort trip without the "occasion" framing. This is the workflow for those.

The Dual-Host Decision Tree

Critical: Which Host Books the Trip?

All-inclusive bookings split between two host paths:

- **Through Fora:** Luxury and upmarket all-inclusives where Fora has Hyatt Privé / Virtuoso amenity packages (Excellence, Le Blanc, Zoetry, Secrets, Dreams, Atelier, Hyatt Ziva, Grand Velas, Rosewood Mayakoba). Amenity package usually beats packaged-tour pricing.
- **Through TTAND / TPI (secondary host):** Mass-market all-inclusives where tour-operator packaged pricing wins (Sunwing, Air Canada Vacations, WestJet Vacations, Transat). Bahia Principe, Iberostar non-Grand, Riu, Royalton non-Luxury, Barceló, mid-tier Princess.

The first 5 minutes of the discovery call determine which path. Asking budget + brand preference + travel dates pinpoints which host owns the booking.

Discovery Questions

15-MIN ALL-INCLUSIVE DISCOVERY

1. **When are you traveling, and from where?** YYZ→PUJ peak December = packaged charter terrain. YUL→Cancun off-peak = Fora-direct terrain.
2. **How many people, and ages?**
3. **Have you stayed at all-inclusives before? Which ones?** Calibration. "We always do Sandals" tells you the tier.
4. **What did you like / not like about the last one?** Specific feedback to anchor recommendation.
5. **Adults-only or family?**
6. **Budget total or per-person, including flights?** \$3K/pp/week packaged → tour operator. \$5K+/pp/week + open to longer stays → Fora.
7. **Vibe — quiet, lively, active, sleepy?**
8. **Food important? Beach important? Pool important?** One of these matters more than the others, always.

The Workflow

STAGE 01

Day 0

Lead In (Often High Intent)

Source: SEO from the All-Inclusives page + IG referral + word-of-mouth from previous all-inclusive clients. These leads tend to be highest-intent — they specifically want resort travel.

STAGE 02

15–20 min

Quick Discovery

Shorter than other segments because the buying intent is clearer. The 8 questions above. Within 10 minutes you know: which host path, which property tier, which destinations to recommend.

STAGE 03

During the call

On-the-Spot Recommendation

Unlike honeymoon (where you build a polished proposal), all-inclusive bookings often close from the call directly. "For your \$4K/pp/week January in DR — I'd put you at Excellence Punta Cana, Club tier. About \$4,200/pp. Privé gives you breakfast at all restaurants, \$200 spa credit, and butler service. Want me to send a 1-page summary and get this booked this week?"

STAGE 04

Same day

Planning Fee (Often Waived)

Often no planning fee for straightforward all-inclusive bookings. The Fora commission is enough. Reserve the \$200–300 planning fee for: multi-stop AI trips, group AI bookings, custom requests beyond standard packaging.

STAGE 05

24–72 hours

Booking

If Fora: standard Fora portal flow with Privé / Virtuoso amenity attribution.

If TTAND: standard tour operator portal flow (Sunwing dashboard, ACV portal). Note: amenity perks don't apply on packaged bookings.

STAGE 06

T-21, T-7

All-Inclusive-Specific Pre-Trip

T-21: Resort-specific guide: restaurant reservation strategy (many resorts require day-of advance booking), excursion recommendations, spa appointment booking, what tipping looks like at all-inclusives.

T-7: Final note + WhatsApp.

STAGE 07

T+1, T+3

Post-Trip + Specific Review Ask

"Welcome back. Quick favor: I'm collecting honest property reviews for the All-Inclusives page. Would you be willing to share a 2-3 sentence take I could feature (anonymized or with name attribution, your call)?" Real client reviews on the All-Inclusives page strengthen the specialty positioning enormously.

All-Inclusive Specialty KPIs

METRIC	TARGET
Discovery → booking	70% (highest in the practice)
Time to booking	5–10 days
Avg booking size	\$7K
Avg net (Fora-routed)	\$800–1,500
Avg net (TTAND-routed)	\$300–500
SEO contribution to leads	30% by M9

SECTION 07

Cross-Segment Operations

Things that apply across every segment workflow. Don't rebuild these for each.

The Universal Intake Form (Use for All Segments)

Single Tally form. Adaptive questions based on segment selected. Fields:

- Name + Email + Phone (required)
- Segment: Honeymoon / Family / Bach / Milestone / Business Travel / Resort (Other)
- Number of travelers
- Approximate date range
- Approximate budget (range options, not free-text)
- Origin city / How you heard about Preface
- One-sentence "anything I should know"

Form submission → auto-routes to your Slack with segment-specific labeling.

The Universal CRM Stages

STAGE	DEFINITION
1. New Lead	Inquiry received, not yet contacted
2. Outreached	Initial reply sent, awaiting response
3. Call Scheduled	Discovery call on calendar
4. Discovery Done	Call complete, awaiting planning fee or proposal
5. Planning Fee Paid	Active proposal build
6. Proposal Sent	Awaiting client decision
7. Booked	Trip booked + commission tracked
8. In-Trip	Client traveling
9. Completed	Returned + post-trip messaging done
10. Nurture	1-year referral / repeat loop
X. Lost	Closed without booking; reason logged

The Pre-Trip Packet Template (One Template, Three Versions)

Same skeleton across segments. Vary the depth.

1. **Quick context:** Your trip, dates, headcount
2. **Booking confirmation block:** Property name + confirmation number + check-in time + room types
3. **What to expect at check-in:** Amenity package, upgrade status, special requests
4. **Recommendations (segment-specific):**
 - Honeymoon: restaurant reservations, spa, sunset moments, photographer if relevant
 - Family: kids' programming, restaurant strategy, beach safety
 - Bach: dinner reservations, boat day, club access, group activities
 - Milestone Group: group activities, restaurant blocks, transportation, special events
 - BT: room number once available, hotel direct phone, transport from airport

5. **Practical:** Weather, currency, tipping, transit, passport/visa, time zone
6. **Disruption protocol:** Your WhatsApp number + a quick "if X then text me"

The Welcome-Back / Review Ask Template

Subject: Welcome back — quick favor?

Hey [Name] —

Hope the trip was as good as the photos look. Glad to have helped.

Two quick things:

1. **If you have 60 seconds**, would you be willing to leave a quick Google review? Even one line helps people deciding whether to work with me: [\[review link\]](#).

2. **If the trip was meaningfully better** than you expected, the highest compliment is sending one friend my way. Forward this email or just drop my Calendly link: [\[link\]](#).

Thanks for trusting me on this. Hit me up anytime there's a next trip on the horizon.

— [Name]

The Annual Re-Engagement Loop

TRIGGER	MESSAGE
Anniversary of trip	"Quick one — happy [X-year] since [trip]. Any travel coming up?"
Honeymoon: 1 year	"Happy anniversary! Any plans to mark it? I'd love to help plan something."
Family: October & January	October: "Winter break thoughts forming?" January: "March break ideas yet?"
Bach: After the wedding	"Honeymoon thoughts? If you didn't book it yet, I'd love to help."
Milestone: Annual	"Any milestone moments coming up I should help with?"
BT: Quarterly	Built into the workflow (Section 05)
